

## What is the Sai Shakti Ancient Knowledge

*“You have to drink the immortal liquid of the knowledge. Forever and ever it’s the real happiness, the real high spiritual vibrations.” -Sri Kaleshwar*

Sai Shakti Knowledge comes from ancient palm leaf manuscripts of India and was brought forward in this time by Sri Kaleshwar. These palm leaf manuscripts were written thousands of years ago by Rishis (powerful Saints) who received the information directly from the Divine Mother.

Some of these precious manuscripts have been lost or destroyed. Others were held in secret for many generations. It was part of Sri Kaleshwar’s mission to ensure that the ancient divine formulas and truth from the palm leaf manuscripts be used to bring enlightenment in this time. In Kaleshwar’s words:

*“It’s the time to change the globe’s belief system so the coming generations know the ancient formulas that already exist. To know the ancient sculptures, the power stones, power objects, and belief systems from thousands of years back. They researched and wrote many books about the hidden truth. The whole globe is waiting for this information, these mechanisms; the globe deserves to learn about this.”*

The Sai Shakti Knowledge not only contains the hidden ancient truths known only to the Sages, it prescribes direct channels to enlightenment. These enlightenment channels use precise Mantra (divine vibrational prayer) and Yantra (sacred diagrams) formulas for purifying, connecting, and empowering divine energy in you. They protect you from negativity, grow your soul's divinity, and connect you to the infinity.

There are many teachers and mantras, but what is the right knowledge to take you to enlightenment? Knowledge is a huge ocean. You can never drink it all. You need to know the right drops to drink to connect to the divine energy. The ancient Saints wrote those precious drops in the palm leaf manuscripts. Sri Kaleshwar has distilled those drops into the Sai Shakti Knowledge.

By learning the Sai Shakti Knowledge, step by step you advance your consciousness and connection to divine energy. You begin to understand how karma and illusion (Maya) play on you (through the Five Elements, Vaastu, Kala, Datta Kriya, Sri Chakra and Womb Chakra). But more than this, you learn how to transcend Maya's play to gain enlightened states of consciousness (through empowering the 3rd eye, Brahma Consciousness, Holy Womb Chakra, Surya Nadi, Chandra Nadi, Heart Chakra, and through Paramashiva Yoga steps of soul advancement and washing your blocks). Further, you learn how work within the Maya to advance your soul, connect to the Divine Mother, Angels, Divine Souls, and miracle and siddhic energies, conduct healings, and engage the miraculous yogic channels of the ancient Saints like Jesus Christ, and Shirdi Baba.

This list is a taste of the immortal nectar the ancient Sai Shakti Knowledge has within it.

## The Five Elements

This Five Elements are the basis of all creation. This knowledge awakens your divine channels to everything that is and is the foundation for a balanced life, divine healing practices and a connection to miracle energies.

## Holy Womb Chakra Process

The *Holy Womb Chakra* is a divine creation point within us, a connection to the Divine Mother, and a resting place of our soul energy. Through the purified womb chakra we can connect to the Divine Feminine energy that created all things. You can: heal broken heartedness; help build union energy in relationships; heal the effects of negative relationships and attraction; heal negative sexual experiences and abuse; heal some chronic illnesses; help parents to create the highest divine energies for their child during conception and pregnancy; and pull the Divine Feminine energy to charge your soul

## Kaleshwara Vaastu

*Vaastu* is the ancient science of how the *Five Elements* energies effect on us through structures and spaces. Through implementing the principles of *Vaastu* we bring harmony to the natural energies that govern our lives.

## Sri Chakra

The *Sri Chakra* is the soul diagram of Mother Divine. Through *Sri Chakra* Processes You Can: magnetize your life to be gift to the world; access divine abundance and prosperity; access the siddhic powers that kill negativity; contact the deep silence and miracle energies; build connection to the Healing powers; connect to divine birthing energies; and prepare for Mother Divine darshan (seeing the Mother with your open eyes).

## Paramashiva Yoga

Paramashiva Yoga accesses this energy of Shiva to create new divine energy in you to move through stages of the illusion and progress your soul. These practices move the soul through handling negative spirits, and attracting the angels and divine souls to connect to the Divine Mother.

## JC Channels

The *JC (Jesus Christ) Channels* were taught and practiced by Jesus. Charging the *JC Channels*, brings you to an understanding the mechanisms of reality, life and death, soul energies, and miracle energies. These channels are the key to accessing and growing your soul capacity to perform the highest miracles. The teachings of the JC channels include the powerful JC Yantra. It is Jesus' soul yantra and symbol to win all the divine channels.

## Datta-Kriya

*Datta Kriya* is the action of Dattatreya-- the actions of handling the Illusion. Though the knowledge of *Datta Kriya* and charging these channels you gain your highest pathway through the illusions and karmas of life. As well, you gain a valuable tool to protect yourself from depression, heartbreak, and curses or evil spirits, You also gain clarity and willpower, awaken your spark and inspiration, and gain the abilities to help someone suffering under the influence of dark energies.

## Surya / Chandra Nadi

### **Surya Nadi**

The Surya Nadi Process is a powerful enlightenment process that grows the divine spark in you to achieve higher state of consciousness and become a strong healer.

### **Chandra Nadi**

In the Chandra Nadi Process, you're developing pure, pure *stitha pregnatha ananda*--bliss. So you won't feel a big illusion when it wants to flow on you. You become the high, strong divine soul and can give the happiness and healing around you.

## Kala Chakra

*Kala Chakra* addresses the effects of external and internal cycles of time on soul development. Our chronological age and the rate of turnover of the cells within our bodies govern our growth and death timing. The mantra and yantra practices of the *Kala Chakra* provide huge protection circles and free us from limiting astrology and numerology, and painful family and ancestral patterns. Additional practices connect our soul's knowledge to our mind and connect our soul's dharma (divine work) to the world.
